The 5th International Conference on Contemporary Physics (ICCP-V) will take place in Ulaanbaatar, Mongolia, 3-6 June 2013. The previous conferences in this series were held in 2000, 2002, 2005 and 2007. We are kindly inviting all academics and researchers who work in the field of nuclear physics and technology, high energy and particle physics, and condensed matter physics to participate.

The ICCP-V aims to provide a good opportunity for expert working in various topics of Contemporary Physics to discuss the latest research activities, to consider the prospects of applications and to simulate interdisciplinary exchanges. This conference also provides the opportunity for round table discussions on special cross-disciplinary issues. The conference covers wide range of topics.

Topics:
Nuclear Physics and Technology
- Nuclear Structure, Nuclear Reactions, Nuclear Analytical Methods and Technology
- Nuclear Energy Technology, Radiation Biology and Radiation Protection

High Energy and Particle Physics
- Experimental Study of the High Energy Physics, Theoretical Models of Elementary Particles

Condensed Matter Physics
- Nano-structures, Crystal Structure and Dynamics

Key dates
- Registration deadline: May 15, 2013
- Abstract submission deadline: May 15, 2013
- Conference: June 3-6, 2013

Venue
- All sessions will be taken place in the main building of National University of Mongolia

Registration
- Your registration form (.doc/pdf) can be sent directly to iccp5.2013@gmail.com. The form can be downloaded from conference website https://sites.google.com/site/iccpSub/.

The conference registration fee is 300 USD for participant and 150 USD for accompanying person/colleague. There is no registration fee for student.

This conference is being organized by:
- Joint Institute of Nuclear Research (JINR), Dubna, Russia
- Nuclear Energy Agency (NEA) of Government of Mongolia
- National University of Mongolia (NUM)
- Mongolian Academy of Sciences (MAS)
