

JINR Newsletter #10, 18 March 2026

Dear colleagues and friends,

The JINR Vietnamese Young Scientists and Specialists club held its first workshop. During the first year since the club's establishment, the participants actively worked to unite young researchers from Vietnam working at JINR and creating a favourable environment for their scientific and personal development.

Ten Far Eastern Federal University students took part in a medical physics internship at JINR. Organized in cooperation with the JINR Information Centre at FEPU, the programme is aimed at helping students jumpstart their scientific careers after graduation.

The Joint Institute is getting ready to celebrate its 70th anniversary next week, on 26 March. The JINR website, Telegram channel, VK page, and Newsletter will be providing updates on the events that will mark this milestone.
