

## JINR Newsletter #48, 7 December 2023

Dear colleagues and friends,

Last week, news of international cooperation were the key ones. A regular meeting of the JINR-Serbia Coordination Committee took place. During the visit to JINR, a representative of the University of the Witwatersrand (Johannesburg) discussed the development of cooperation with South Africa. JINR leaders took part in major international conferences in Azerbaijan and Belarus. In addition, JINR representatives actively participated in the annual Congress of Young Scientists held in Russia.

New publications and scientific papers, interesting videos, as well as new wallpapers for your smartphones are in this issue of the JINR Newsletter.

### Cooperation

#### 9th Serbia-JINR Cooperation Committee held in Belgrade

At the 9th Serbia-JINR Cooperation Committee held in Belgrade, participants summed up the results of the year's work and launched 12 new projects. They noted high interest of the parties in deepening cooperation.

#### Giant resonances for SA-JINR Collaboration

The SA-JINR board coordinator for nuclear physics, Dr. Iyabo Usman from the University of Witwatersrand (Wits) in Johannesburg, South Africa, visited JINR as part of the ongoing JINR-SA collaboration. She discussed the possibility of new joint projects between Wits and FLNR researchers and opportunities for other SA universities as well.

#### Strengthening JINR-Baku bilateral ties

DLNP JINR Director Evgeny Yakushev has taken part in the conference "Modern trends in physics-2023" organized by Baku State University (Azerbaijan). He participated in a number of meetings and spoke at a scientific seminar, where he introduced the audience to the activities of the Institute and the scientific research of DLNP.

#### Research with JINR's participation – best project of the All-Russian Youth Competition

A researcher at the Centre of Applied Physics of the Flerov Laboratory of Nuclear Reactions, a candidate of chemical sciences Ilya Vinogradov is actively involved in a study that is the best project of the *In the heart of science* All-Russian Youth competition of scientific projects.

### Research

#### JINR exploring promising ways to synthesise new heavy and superheavy nuclei

JINR scientists have created a new specialised facility for a detailed study of products formed in the reactions of multi-nucleon transfers, and carried out a first series of experiments using it. The research will contribute to a deeper understanding of the dynamics of these reactions and a more effective use of them for the synthesis of new nuclei, including those unavailable in other nuclear reactions.

#### What are JINR inclinometers?

Precision laser inclinometers are unique devices for measuring the Earth's surface inclinations. They have been developed by DLNP JINR scientists.

### Publications

#### New issue of Particles & Nuclei

A new issue of the review journal *Particles and Nuclei* #6 has been published. In this eminent journal, review articles examine elementary particle physics, problems of vacuum in quantum field theory, condensed matter problems, symmetries in physics, etc.

#### Ion beam positioning and position stabilisation system for EG-5 accelerator

The JINR Publishing Department has issued a preprint "Ion beam positioning and position stabilisation system for EG-5 accelerator" P11-2023-51 issued by the JINR Publishing Department. The authors are Vlacheslav Semenov et al.

### Announcements

#### Repairs in Dubna Hotel

Since 14 January, the restaurant of the Dubna Hotel will be closed for major repairs. In the meantime, we invite everyone interested to enjoy a delicious dinner, feel the historical atmosphere and perhaps even visit the room 326, where Vysotsky often stayed.

### Media

#### Filming at JINR

JINR has become a part of the *Russia 21st Century* documentary project by the Russian Knowledge Society. The new episode of the series, devoted to science in the Institute's location country, featured VBLHEP JINR employees Anatoly Sidorin, Sergei Merts, and Alyona Kotova.

#### Video from VBLHEP

In a video, you can see a pavilion of the Multi-Purpose Detector (MPD) of the NICA Complex. The most sharp-eyed could spot the movement of a superconducting solenoid, an 800-tonne magnet of over 5 metres in diameter. Why is this happening? You'll find out soon, stay tuned.

#### What is it like to work as a physicist at the NICA Hadron Collider?

Vasilisa Lenivenko, a researcher at the Joint Institute for Nuclear Research, was a guest of the *In the World of Scientists* programme. In this episode, you will learn why and how scientists are creating the state of the early universe, what applied research is being done at the NICA Collider, etc.

### Upcoming Events

#### Conferences

##### 5 – 8 December, Baikal Collaboration Workshop, Dzhelepov Laboratory of Nuclear Problems JINR, Dubna

##### 6 – 12 December, Visiting seminar "Scientific activities of JINR", Meshcheryakov Laboratory of Information Technologies JINR, Dubna

##### 12 December, MEPhI-JINR workshop, Computing for the NICA megaproject, National Research Nuclear University MEPhI

[READ MORE →](#)

#### Seminars

##### 8 December, 10:00 AM, VBLHEP Lecture series on training of accelerator complex operators, Beam extraction from Booster, Booster – Neutron transfer channel, injection into Nuclotron

##### 11 December, 10:00 AM, BLTP "On optical model for sub-barrier heavy-ion fusion reactions" by Sergey Vinitski

##### 11 December, 10:00 AM, VBLHEP Lecture series on training of accelerator complex operators, Schottky diagnostic, Stochastic cooling system at Nuclotron

##### 11 December, 11:00 AM, BLTP Journal Club, "Differentiating by prime numbers" by Pavel Maksimov

##### 12 December, 4:00 PM, BLTP "Simulated quantum computations of charge transport in bio-nanostructures" Viktor Yushankhai, Liudmila Siurakshina

[READ MORE →](#)

#### Culture

##### 10 November – 10 December, daily from 1:00 to 7:00 PM (except Monday), JINR Cultural Centre "Mir", Exhibition of young artists of Dubna

##### 16 November – 15 December, daily from 1:00 to 8:00 PM (except Monday), JINR Universal Public Library, Photo exhibition of floral still lifes

##### 4 December – 2 February 2024, daily from 2:00 to 6:00 PM (except Monday), JINR Scientists' Club, Olga Trifonova, Art exhibition

##### 7 December, 7:00 PM, JINR Universal Public Library, Summer Reading List book club

##### 8 December, 6:00 PM, JINR Universal Public Library, JINR Cinema Club

##### 8 December, 7:00 PM, JINR Universal Public Library, Lecture on Russian academic and salon arts

##### 9 December, 1:00 PM, JINR Universal Public Library "Blokhinka", Meeting of debating club for teenagers

##### 10 December, 10:00 AM, JINR Cultural Centre "Mir", Dance competition

##### 12 December, 7:00 PM, JINR Universal Public Library, Genealogy club's meeting

##### 14 December, 7:00 PM, JINR Universal Public Library, Hairpin book club
