

JINR Newsletter #1, 11 January 2024

Dear colleagues and friends,

The Joint Institute has entered a new year 2024. Since the beginning of the year, the Institute has been implementing a new Seven-Year Plan for the Development of JINR in 2024 – 2030. In addition, the JINR Topical Plan and the 2024 JINR Calendar of Memorable Dates will help to make plans for this year.

Despite the frosts during the New Year holidays, many employees spent time outside. A number of sports competitions in which they have taken part confirms this. Sports, publications, media, and much more are in this new issue of the JINR Newsletter.

JINR Press Office

Seven-Year Plan

New Seven-Year Plan for the Development of JINR

A new Seven-Year Plan for the Development of JINR 2024 – 2030 was approved at a session of the Committee of Plenipotentiaries of the Governments of the JINR Member States, which took place in Almaty on 10-11 November.

New wallpapers for your smartphones

The JINR Telegram channel has released wallpapers to celebrate the New Year! Since JINR's foundation, the Mendeleev's Periodic Table has been enriched with 18 new elements, 10 of which were synthesised at the Institute. The first element obtained at JINR was nobelium with atomic number 102. A group of Georgy Flerov synthesised the element in Dubna in 1963–1967.
