JINR Newsletter #44, 11 November 2026

Dear colleagues and friends,

Mongolia hosted meetings of the JINR Finance Committee and the Committee of Plenipotentiaries of the Governments of the JINR Member States. The participants reviewed the Institute's latest milestones and discussed the organizational aspects of conducting future studies on the cutting edge of science.

The 2026 OGANESSON Prize laureates were revealed at the CP session. This year, the Prize is awarded for outstanding contributions to the development and popularisation of nuclear physics, accelerator technology, superheavy element synthesis, chemistry, and materials science.

In the latest issue of the JINR Newsletter, you will find a video about the history of Mongolia's participation at JINR, a quiz marking World Science Day, event announcements, and much more.

Announcements

FLNP Conference of Young Scientists and Specialists invites applications

The conference will take place from 23 to 25 November at the Laboratory of Neutron Physics at JINR. The agenda covers nuclear physics, neutron and photon scattering methods in condensed matter physics, methodological studies, development of the JINR Main Facilities, and life sciences. The registration is available until 18 November via the link.

Mongolia at JINR: 70 years of history

Over the seven decades, specialists from Mongolia working in Dubna have carried out numerous research projects. Many of the scientists subsequently became professors, academicians, state prize winners, and heads of scientific institutions across the country. Take a look at a video featuring the notable events of Mongolia's participation in JINR work.

Upcoming Events

Conferences

- **11–15 November**, JINR-India workshop on Condensed Matter Physics, Chennai, India
- **17–20 November**, 12th SPD Collaboration Meeting, JINR, Dubna

Seminars

- **12 November**, 10:30, MLIT, Seminar for applicants for grants and scholarships competitions
- **13 November**, 11:00, BLTP, Hadron Physics seminar
- **13 November**, 11:30, VBLHEP, "Neutrino physics: progress and prospects" by Liudmila Kolupaeva
- **13 November**, 15:00, MLIT, "Computational modelling of molecular systems: the Monte Carlo method and software implementation" by Lev Chepurnov
- **17 November**, 11:00, MLIT, "A method and software tools for static analysis of digital hardware descriptions to detect design defects" by Yan Churkin

Culture

- **30 October – 30 November**, JINR Universal Public Library, Joy in Landscapes exhibition
- **18 November – 13 December**, JINR Mir Cultural Centre, Post Factum glass art exhibition
- **12 November**, 18:00, JINR Universal Public Library, English speaking club
- **13 November**, 18:00, JINR Universal Public Library, JINR Cinema Club
- **13 November**, 19:00, JINR Scientists' Club, Violin concerto
- **14 November**, 16:00, JINR Universal Public Library, Saltykov-Shchedrin universe festival
- **14 November**, 18:00, JINR Mir Cultural Centre, The Sleeping Beauty ballet

Sports

- **14–18 November**, JINR Sports Complex, JINR championship in air rifle shooting
